KEMLAX 333
MATT Synthetic Enamel Paint

**DESCRIPTION:**
- KEMLAX333 is a Matt synthetic enamel paint based on alkyd resin.

**FIELD OF APPLICATION:**
- Can be applied on synthetic primer or undercoat, or on both.
- Also, on wooden, metallic and plastered surfaces.

**ADVANTAGES:**
- Acquires a homogenous consistency by light mixing.
- Easy to apply.
- High coverage because of the use of finely grounded and high quality pigments.
- After drying it produces matt elastic homogenous film, that is well adhered to the substrate and resists abrasion and scratching.
- Glossy surfaces could be obtained in required degrees by adding KEMLAX 999, also it could be coloured by KEMTAL.

**DIRECTIONS FOR USE:**
- The surface of the substrate should be cleaned from oil, grease, dirt and loose particles.
- Mix well the contents of the can before use.
- The substrate should be primed and / or coated with a suitable undercoat (as KEMLACQUER) then left to dry and smoothed down with sand paper.
- Two coats of KEM LAX333 are recommended. Apply the second coat after the first coat has completely dried.
- Can be applied using brush, roller or spraying.

**SAFETY PRECAUTIONS:**
- Application should be carried out in a well ventilated place.
- Gloves, protective clothing and eye goggles should be worn during application.
- Skin contaminations should be immediately cleaned with soap and plenty of water.
- If the material is splashed into the eyes, these should be immediately washed with water and report to an eye specialist.
- Do not eat or smoke during use.

**STORAGE LIFE:**
- 1 years in closed containers & suitable conditions.

**PACKAGES:**
- 1 kg, 6 kg
