KEMTAL
Glossy Synthetic Enamel Paint
Complies with ESS 793 / 1990

DESCRIPTION:
- KEMTAL is a glossy synthetic enamel paint based on alkyd resin, additives and finely ground pigments.

FIELDS OF APPLICATION:
- Glossy synthetic air-drying enamel paint for exterior and interior surfaces.
- Can be applied on synthetic primer or undercoat, on both.
- Also, on wooden metallic and plastered surfaces.
- Especially suitable for wooden and steel works used in buildings, and obtaining a high glossy enamel on the walls of residential and public buildings.

ADVANTAGES:
- Acquires an homogenous consistency by light mixing.
- Easy, to apply without sagging.
- Produces a film which resists the effects of water and atmospheric conditions.
- High coverage because of the use of finely grounded and high quality pigments
- After drying it produces a high gloss elastic homogenous film, that is well adhered to the substrate and resists abrasion and scratching.

DIRECTIONS FOR USE:
- The surface of substrates should be cleaned from oil, grease, dirt and loose particles.
- Mix well the contents of the can before use.
- The substrate should be primed and / or coated with a suitable undercoat, then left to dry and smoothed down with sand paper, (KEMTAL can be thinned down with naphtha or turpentine KEMSOLV 7 and used as an undercoat).
- Apply the coat from the top downwards using a dry clean brush and ensure that the painting strokes cover all the surface to be painted.
- Two coats of KEMTAL are recommended. Apply the second coat after the first coat has completely dried.
- The can should be tightly closed after use.

SAFETY PRECAUTIONS:
- Application should be carried out in a well ventilated place.
- Gloves, protective clothing and eye goggles should be worn during application.
- Skin contaminations should be immediately cleaned with soap and plenty of water.
- If the material is splashed into the eyes, these should be immediately washed with water, and then report to an eye specialist.
- Do not eat or smoke during use.

RATE OF USE:
- 1 kg, covers 5 - 7 m² per each coat.

STORAGE:
- 3 years under suitable storage conditions.

PACKAGES:
- 1 kg and 4 kg.
