

### Kemstone

Decorative, Durable, multi - Coloured, Textured Finish For Interior and Exterior Use

#### Description:

- **KEMSTONE** : is a ready to apply decorative plaster composed of a mixture of natural coloured sand and high quality modified acrylic binder.
- Complies with CMBI TECH. SP.CS. no CMBI 7030.
- Available in two different types:- **KEMSTONE 1000** ( spherical granules) and **KEMSTONE 2000** (angular granules).

#### Fields of Use:

- Exterior and interior finish for different surfaces like concrete, masonry, stone, plaster, gypsum boards and wood.
- Suitable for office building, hotels, hospitals, schools, public and private buildings, shops and dwelling buildings.

#### Advantages:

- Available in a highly attractive variety of colour patterns.
- Is washable and highly resistant to abrasion. It could be applied indoors and outdoors.
- Flexible and has excellent adhesion on concrete surfaces, cement plaster, wood, steel etc.
- Does not require surface preparation and priming prior to application.
- Has a guaranteed durability, it does not chip, flake or peel even after many years.
- Provides a smooth or textured finish that covers holes, cracks and other surface defects , which a thin paint can not hide.
- Has excellent water, acid and alkali resistance.
- Vapour permeable
- Easy to apply in one low cost operation using trowel, roller or sprayer.
- Has a high coverage rate.
- Is very economic.

#### Technical Data :( at 25° C)

Colour	One colour or some colours interfered
Density	1.75± 0.05 kg/l
PH	7.5 - 8.5
Viscosity	45 ± 5 Pois
Rate of use	2 - 3 kg / m <sup>2</sup> (4.0 kg / m <sup>2</sup> for spray)

#### Directions for Use:

- **KEMSTONE** is ready to use and applied just like a plaster coating with a plasters trowel. It can be used directly on all sound and dry surfaces. It is however, recommended to prime plaster and porous substrates with one coat of **ADDIBOND** diluted 1 : 5 with water.
- Sprayer should be used for some kinds of this product as indicated on the pails of **Kemstone 2000**.
- Clean tools directly after use with water.

#### Safety Precautions:

- Wear gloves and goggles.
- Skin and face contamination should be washed with water.
- Accidental splashes to eyes must be rinsed with clean water and then report to a specialist.
- Do not eat or smoke during use.

#### Storage:

- 9 months ( in closed containers) under suitable storage conditions.

#### Packages:

- 1 kg, 5 kg, 18 kg and 125 kg.
