Kemaxit 200
Modified Gypsum Adhesive Plaster

Description:
- **KEMAXIT 200**: Modified gypsum adhesive plaster, low setting, high water retention, suitable for an application of one thin layer on smooth concrete, concrete ceiling, and all kinds of plastering.
- Setting time complies with ASTM C 28.
- Complies with CMBI TECH.SPCS. no CMBI 1120.
- Packaging complies with ISO 6591-1 and ES 2254.

Fields of Use:
- Concrete and masonry surfaces.
- Finishing of walls and ceilings.
- For flats, universities, hotels and cinemas, offices...etc.
- Do not use on metallic surfaces.

Advantages:
- Low setting time (20 - 40 minutes).
- High bond strength to all surfaces.
- Suitable to use over smooth fair face concrete at very small thicknesses.
- Easy to use as a top coat on different surfaces as cement, gypsum, wood,...etc.
- Its surface is hard, smooth and can be cleaned with water.
- Can be used as a finish layer without any need of final paints.
- Can be overcoated with various paint kinds.

Technical Data: (at 25°C)
