Kematone

High Quality Plastic Semi-gloss Paint For Interior And Exterior Use

Description:
- **KEMATONE**: is a semi-gloss latex paint based on concentrated acrylic and vinyl acetate co-polymer emulsions, together with a high percentage of high quality titanium dioxide.
- Complies with ESS 1539.

Fields of Use:
- Semi-gloss paint for cement plastering, concrete, masonry and wood surfaces.
- Can be applied on gypsum surfaces, after first applying a primer coat of ADDIBOND65 diluted with water (ratio 1:3).
- Suitable for exterior and interior uses.

Advantages:
- High coverage at low consumption rate.
- Can be used for both exterior and interior applications.
- Resists the effects of atmospheric conditions, ultraviolet rays and moisture.
- Intense white or coloured to suit all requirements.
- Can be washed with water.
- High resistance to friction and abrasion.
- Fast drying.
- Durable and its colour does not change with time.
- High flexibility and complies ESS 1539.

Technical Data: (at 25° C)

Directions for Use:
- Stir **KEMATONE** well before use.
- The surface to be painted should be free of dust, oil, etc.
- Porous surfaces should be primed with a sealer coat of **KEMABIND** diluted with water (ratio 1:1).
- Cavities should be filled and surfaces must be smoothed using **KEMATONE PUTTY**.
- Apply an undercoat of **KAMAKOTE 400**.
- Apply one or two coats of **KEMATONE** according to surface conditions using a brush, roller or sprayer.
- In case of using the sprayer, dilute **KEMATONE** with 5-10% water.
- All tools should be cleaned with water after use.

Safety Precautions:
- Wear gloves and goggles.
- Skin and face contamination should be washed with water.
- Accidental splashes to eyes must be rinsed with clean water and then report to a specialist.
- Do not eat or smoke during use.

Storage:
- 12 months under suitable storage conditions.

Packages:
- 1 kg, 4 kg, 6 litres and 9 litres.
