KING TONE
High Quality plastic gloss paint for interior and exterior use complies with ESS 1539 – 1993

DESCRIPTION:
- KING TONE is a gloss latex paint based on concentrated styrene acrylic resin emulsions, together with a high percentage of high quality titanium dioxide.

FIELDS OF APPLICATION:
- Gloss paint for cement plastering, concrete, masonry asbestos and wood surfaces.
- can be applied on gypsum surfaces, after first applying a primer coat of ADDIBOND diluted with water in the ratio 1:2

ADVANTAGES:
- High coverage power with low consumption rate
- Can be used for both exterior and interior applications.
- Resists the effects of atmospheric conditions, variations, ultraviolet rays and moisture.
- Intense white or coloured to suit all requirement.
- Can be washed with water.
- High resistance to friction and abrasion.
- Fast drying.
- Durable, and its colour does not change with time.
- High flexibility and complies ESS (bending test)

DIRECTIONS FOR USE:
- stir KING TONE well before use.
- the surface to be painted must be free from dust, oil, grease etc.
- porous surfaces should be primed with a coat of KEMABIND
- Cavities should be filled and surfaces must be smoothed using the wall putty KEMAPUTTY
- An undercoat of KEMAKOTE400 should be made.
- Apply one or more coats of KING TONE according to the surface conditions using a brush, roller or sprayer
- All tools should be cleaned with water directly after use.

RATE OF USE: 1 kg covers 8-10 m² per coat.

STORAGE: 12 months under suitable storage conditions

PACKAGE: 1kg, 4kg and 20 kg
