**Thinner S, L**

Excellent solvent power for polyurethane paints

**Description:**

- **THINNER S** and **THINNER L** is a mixture of organic solvents used for manufacture and dilution of polyurethane paints.
- **THINNER S** used in high temperatures and **THINNER L** used in ordinary temperatures.

**Fields of Use:**

Thinning of 2 component compounds based on polyurethane as:

- **CMBI products:** KEMAAPoxy 129 PUR and WOODEX TOP.
- **CMB products:** PUROSEALER, PUROPRIMER P, PUROGLOSS 9999, PUROGLOSS P 9090, PUROSATIN 6565, PUROSEALER P 6060, PUROMAT 3535 and PUROMAT P 3030.

**Technical Data:** (at 25°C)

**Directions for Use:**

- Add **THINNER S** or **L** as, mentioned in the data sheet of polyurethane paint, to the component A and mix it mechanically very well. Then add component B and thoroughly mixing by means of mechanical mixer.
- Use **THINNER S** or **L** in ratio as mentioned in the data sheet of the product (usually 5 – 10%).

**Safety Precautions:**

- Application should be carried out in well ventilated place.
- Gloves, protective clothing and eye goggles should be worn during application.
- Skin contaminations should be immediately cleaned with soap and plenty of water.
- If the material is splashed in to the eyes, these should be immediately washed with water and then report to an eye specialist.
- Do not eat or smoke during application.

**Storage:**

- 2 years in suitable storage conditions as far from fire& temperature resources and direct rays of sun.
- Store in well ventilated covered stores.

**Packages:**

- 1 liter and 4 liter.
