

LEYCO – SEAL 22

High – Gloss long Lasted Polymer Seal

DESCRIPTION :

- LEYCO-SEAL 22 is a metal cross-linked synthetic dispersion with high pressure emulsified polythenes .
- The non slip water-proof protective film is characterized by an extreme resistance, soil repulsion and exceptional waer resistance as well as being long lasting . It forms the ideal foundation for the high-speed process and makes daily maintainance easier.
- The application of LEYCO-SEAL 22 reduces significantly rubber marks from froklift or car tires on coated or non-coated industrial floors in warehouses, stores and foot marks on any kind of floors .
- Increases the surfaces hygiene .

FIELDS OF APPLICATION :

- All surfaces except unsealed textile flooring and parquet .

ADVANTAGES :

- Produces a high-gloss protective film, hard as steel .
- Exremly wear resistant and long lasting .
- Reduces significantly rubber marks from forklift and shoes .
- Film with large soil-repulsion .
- Metal cross-linked acrilic with innovatives polythenes .
- High solid percentage .
- Ideal for manual application and high speed process .

TECHNICAL DATA :

Density	1.02 g/cm ³
colour	milky , white
PH-value	8 . 5
Rate of use	6 - 8 m ² / L (depends on quality and porosity of surfaces and the desired gloss .

APPLICATION :

- AS PRIMER : Floor must be stripped .
- If necessary clean with LEYCO-CLEAN 10 . Apply once or twice the stripped floor and allow to dry .
- Gives ideal foundation for all work process .
- AS SEALER Apply 3 or 4 layers to the stripped floor with a mop or suffient sprayer and wipe with a damp mop daily .
- To remove possible foot marks use LEYCO-SEAL 22 diluted with water 1 : 1 .
- Use high speed machines and brown pads. In case of heavy contamination with soiling, grease and oil, floors to be cleaned completely . For basic strippng of substrates from polymer or wax LEYCO-CLEAN 10 is recommended for use .

SAFETY PRECAUTIONS :

- Avoid long skin contacts. If accidently splashed into eyes, flush with plenty of water .

STORAGE :

- Protect against frost (For 1 year) .

PACKAGES :

- 1L , 4L and 15L .
